LifeWise Health Plan of Oregon does not discriminate on the basis of race, color, national origin, disability, age, sex, gender identity, sexual orientation, or health status in the administration of the plan, including enrollment & benefit determinations.

Definitions

Allowed Amount: When providers have a contract with us, the amount your health plan has agreed to pay healthcare providers for services or supplies. You'll be responsible only for any applicable cost sharing, including deductibles, copays, coinsurance, charges in excess of the stated benefit maximums and charges for services and supplies not covered under this plan. In-network providers cannot bill you for charges over the allowed amount.

Coinsurance: Your share of the cost for a service. If your plan's coinsurance is 20%, you pay 20% of the allowed amount and your plan pays the other 80% of the allowed amount.

Copay: A flat fee you pay for a specific service, such as an office visit, at the time you receive service.

Covered in full: Services of which your plan pays the total cost, at 100% of the allowed amount. You do not pay deductibles, coinsurance or copays for these services.

Deductible: The amount of money you pay every year for covered services before the plan pays for certain benefits.

Federal Poverty Level (FPL): A measure of household income, set by federal guidelines, used to determine if you are eligible for government subsidies to help pay for healthcare coverage purchased through the state or federal exchange.

Formulary: A list of drugs covered by a health plan. Not all generic, brand-name and specialty drugs are included in every formulary.

In-network: Doctors, dentists, hospitals, and other healthcare providers that are contracted to provide services and supplies at negotiated amounts called allowed amounts.

Out-of-pocket maximum: The maximum amount of money you will pay for covered services in a calendar year. After you've paid this amount, your plan pays 100% of the allowed amount for services received from in-network providers.

Primary care provider (PCP): The doctor or other healthcare provider you see for most of your routine healthcare needs, often known as your "family doctor." You can choose a different primary care provider for each family member. Your PCP can be a family practice physician, general practice provider, geriatric practice provider, gynecologist, internist, nurse practitioner, obstetrician, pediatrician, physician assistant or naturopath.

Urgent Care: For conditions that require immediate medical attention when your doctor is not available, but are not severe or life-threatening. Your copay may be lower if care is received from an urgent care center that is affiliated with your PCP. (Use the emergency room only for life-threatening emergencies and trauma requiring immediate medical attention and treatment.)

Note that if you see a non-contracted provider, you will be responsible for the difference between the allowed amount and the provider's billed charges, in addition to the deductible, coinsurance and any applicable copay. The allowed amount for a non-contracted provider is determined by LifeWise as described in your forthcoming benefit book.

General exclusions and limitations

Benefits are not provided for treatment, surgery, services, drugs, or supplies for any of the following:

- Cosmetic surgery or reconstructive surgery (except as specifically provided)
- Experimental or investigative services
